

Project Name

Expert Assistance on Behalf of Oil Recycling Facility

Client

Kaye, Scholer, Fierman, Hays, & Handler

Services Provided

- Provided Expert Assistance for Legal Defense
- Analysis of RCRA Rules Covering Transportation and Acceptance of Hazardous Wastes

Project Description

Lionetti Oil Co., a large oil recycling facility located in Old Bridge, New Jersey, was accused of accepting hazardous wastes from an out-of-state generator that consisted of materials that Lionetti was not allowed to accept under its operating RCRA Part B permit. SAI was retained by the law firm of Kaye, Scholer, Fierman, Hays & Handler, Lionetti's counsel, to assist in the defense of the lawsuit brought by the State of New York.

Approach

During the pre-trial assistance phase of the project, SAI performed a technical evaluation which included the review of existing data and technical information needed in order to conduct a regulatory review of applicable federal and state hazardous waste regulations. Special emphasis was given to evaluation of applicable federal RCRA and New York State hazardous waste regulations with regard to the regulation of coded wastes.

A final report of SAI's findings were presented to the attorney's in the case.
